PROFESSIONAL SUMMARY

Creative and detail-oriented Software Engineer, Graphic, UI/UX, and Brand Designer with hands-on experience delivering digital product interfaces, brand identities, and print design across agency, startup, and volunteer settings. After serving as a UI/UX and Visual Designer under NYSC at BlackBox System and Technology, contributing to product design pipelines for web and mobile applications. Skilled at combining design tools (Figma, Adobe Suite, CorelDRAW) with front-end fundamentals (HTML, CSS, Bootstrap, JavaScript) and AI-assisted workflows to move fast from concept to polished, developer-ready designs. Known for reliability, strong client communication, and a track record of turning short-term or volunteer roles into ongoing engagements.

CORE SKILLS

- UI/UX design for web and mobile products — wireframes, prototypes, and developer handoff
- Brand identity design, print production, and marketing collateral
- Front-end fundamentals: HTML, CSS, Bootstrap, JavaScript, GitHub
- Prompt engineering and AI-assisted design/content workflows (Claude, Grok, DeepSeek, Gemini, Qwen)
- Client and stakeholder communication, time management, and multitasking
- Comfortable working independently or as part of a cross-functional team

SOFTWARE & TOOLS

- Design: Figma, Adobe Illustrator, Photoshop, CorelDRAW
- Productivity: Microsoft Word, Excel, PowerPoint
- Development: HTML, CSS, Bootstrap, JavaScript, GitHub, Python (Intermediate)
